

MSH

November 2, 1917.

Columbia River Packers Association,
Astoria, Oregon.

Gentlemen:

Your reports of fishery operations in Alaska for the season of 1917 have been received and upon examination appear to be complete with the exception of two minor points, which do not necessitate the return of the blanks. It is noted that you did not give the rig of the registered vessels at your Chignik plant, but the information was readily obtained for all except the Semidi (17 tons). Will you kindly furnish this information? On the report for your Nushagak plant the localities in which the fish were taken were not stated. It is assumed that they were all obtained in Nushagak Bay, but if this is not correct it will be appreciated if you will name the streams or localities fished.

Very truly yours,

H. M. Smith.

Commissioner.
